

HAPPY VALENTINES DAY

In this issue: Caramel Brownie Hearts, Bad Breath, Patient of the Month, February Specials

Greetings from Platinum Dental Inc.,

- 1 package fudge brownie mix, batter prepared as directed on box.
- 1 package (14 oz) of caramels, unwrapped
- 3 tablespoons of whipping cream
- 1/2 cup chopped pecans (optional)

Directions

1. Preheat oven to 350 degrees. Line an 8x8 inch baking pan with foil. Pour prepared brownie batter into foil-lined pan, and bake until brownies begin to pull away from the side, 25-30 minutes. Cool completely.
2. Lift brownies from pan in one piece. Use a 3-inch heart shaped cookie cutter to cut 6 brownie hearts.
3. Combine caramels and whipping cream in a large bowl. Microwave on high for 1-3 minutes, stirring every 30 seconds, until caramels are melted and cream is incorporated. Drizzle

Bad Breath

Bad breath, also known as halitosis, is a common condition that affects people everywhere, even those with good dental hygiene. Bad breath is a very embarrassing and unpleasant condition, and unfortunately some people with bad breath don't even realize they have it. There are a few causes of bad breath that you should be aware of so that you can avoid them:

- Certain foods that you eat affect the air you exhale and contribute to bad breath odor
- Remaining, rotting food particles in the mouth, between teeth, on the tongues, and around the gums
- Dry mouth, which occurs when the flow of saliva decreases
- Tobacco and smoking
- Medical disorder, such as a local infection in the respiratory tract, chronic sinusitis, postnasal drip, diabetes, liver or kidney ailment.

If you are experiencing bad breath but still can't find the source of the problem, give us a call for some help!
