ZOOM Whitening

We wanted to let you know that we have a new, very fast way to whiten your teeth. It's called Zoom!

Zoom! got its name from its speed. It's considered one of the fastest teeth whitening systems, and can fit easily into the most hectic of schedules. Zoom! can whiten your teeth at the office or at home. If you choose the in-office teeth whitening option, your teeth can look up to eight shades lighter in just one hour. If you choose the take-home option, your teeth can look up to six shades lighter in just three days, and with additional applications, you can go even lighter.

Please give us a call today to schedule an appointment and you will be going home an hour later with a beautiful, bright smile!
