Hello from Platinum Dental Inc.,

HAPPY NEW YEARS!

The new year has started. Have you thought of your new year's resolutions? Maybe you are trying to challenge yourself this year or maybe you want to stick to something easy. Maybe you want to quit a bad habit and start a new one? Well whatever it is we hope you are successful in achieving your resolution. Here are some tips to help you keep your resolution: 1. start with something small- make resolutions that you know you can keep. 2. Don't beat yourself up over it- nobody's perfect and things will happen that will stop you from achieving your resolution, but that only means to try harder. 3. Ask for help- Get together with a couple friends that want to achieve the same resolution and hold yourselves accountable. It's always easier when you have help.

ZOOM

We wanted to let you know that we have a new, very fast way to whiten your teeth. It's called Zoom!

Zoom! got its name from its speed. It's considered one of the fastest teeth whitening systems, and can fit easily into the most hectic of schedules. Zoom! can whiten your teeth at the office or at home. If you choose the in-office teeth whitening option, your teeth can look up to eight shades lighter in just one hour. If you choose the take-home option, your teeth can look up to six shades lighter in just three days, and with additional applications, you can go even lighter.

Please give us a call today to schedule an appointment and you will be going home an hour later with a beautiful, bright smile!
