Welcome Terry!

Summer is in full swing, though you may not know it by the cooler than normal weather we have been experiencing. Nevertheless, San Diego beats any other place for its weather hands down (except maybe Hawaii). With the long summer nights and the great weather, what can be better than finding fun (and some free things) to do. We came upon several great websites packed with these kinds of things and wanted to share them with you

You'll be sure to find something that interests you amongst all the fun things to do. Enjoy.

[Invisalign - Invisible, Comfortable, Removable.](#)

[What is Invisalign and how does it work?](#)

The Invisalign System is a series of clear orthodontic appliances, called **aligners** that allow you to **straighten your teeth without having to wear traditional braces**. Each pair of aligners in the series is worn in two-week increments (removing them only to eat, drink, brush and floss) and moves the teeth in gradual steps to the desired final position.

Improving your smile has never been easier. Maybe it's your time to improve your smile with Invisalign.
